### FEEDING DIRECTIONS

This product is formulated for self-feeding to all classes of beef cattle on pasture.

Provide one container for every 20-30 head. A minimum of two (2) containers may be required in each pasture to ensure proper accessibility. Typical intake will vary depending on the size of livestock being fed and the amount and quality of other available feedstuffs. Cattle may consume from .25 to .5 of a pound per head daily. Intake may be increased by offering more containers, and decreased by reducing the number of containers available.

**CAUTION: USE ONLY AS DIRECTED. FOR RUMINANTS ONLY.** Consumption of selenium should not exceed 3 mg per head daily.

**WARNING:** This product, which contains added copper, should not be fed to sheep or any species that have a low tolerance to supplemental copper.
